Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Response to Arguments***

Applicant's arguments, see, filed 1/18/08, with respect to the rejection(s) of claim(s) 1, 8-10 under have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Christopher Jr. US 5,008,820.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

**Claims 1, and 8-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Christopher Jr. US 5,008,820 in view of Wagner US 4,184,200**

As per claim 1, Christopher Jr. teaches that all files are stored in a tree level directory (Claim 1).

Wagner teaches security registers which are allocatable and deallocatable, where such security registers have the rights (security level) that the data has. (Col 2 lines 48-65).

It would have been obvious to one of ordinary skill in the art to use the directory structure of Christopher Jr. with the security register of Wagner because it allows files to be transferred between directories securely.

As per claim 8, it is well known that registers are stored in memory, and this memory is high speed.

As per claim 9, it is well known that there are a limited number of registers, but there are not an limited number of directories.

As per claim 10, it is inherent that the registers would contain the rights to the directories for which they are allocated.
